PRINTING DATA

To Print data, use the **QUICK** menu
(Figure 4), and choose **SHOW**

Type the variable name in the box. (Figure 6)

and Click on **OK**

Alternatively, click on **SHOW** in the workfile box.

*EViews* will show the data in a spreadsheet form.
(Figure 7)
This is called the Spreadsheet box.

Click on **PRINT** to send this information to the printer.

Alternatively, the Spreadsheet box will appear if you double-click on a variable in the workfile box.
TO print more than one variable, choose **Quick** and **Show**

and then enter the names of the variables you wish to print.

(Figure 8)

Use the **Print** button on the toolbar to send the data to the printer,
